

Sustainable Consumption and Production (SDG-12)

i-REX conference on:
RESOURCE EFFICIENCY & SUSTAINABLE CONSUMPTION
FOOD WASTE – ENERGY – BIOMASS

Luc Reuter luc.reuter@un.org

27 May 2021

UNEP is the leading global environmental authority and set the global environmental agenda. Promotes the coherent implementation of the environmental dimension of SD within the UN system.

Role:

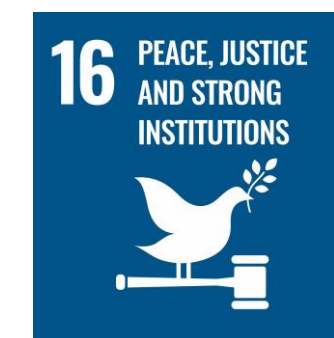

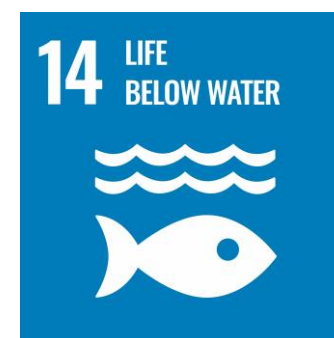

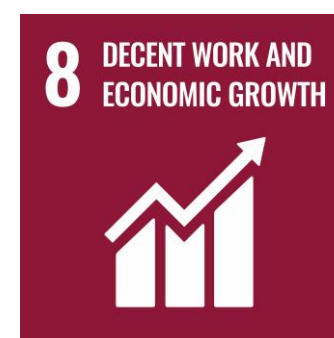

- Assessing global, regional and national environmental conditions and trends;
- Developing international and national environmental instruments;
- Strengthening institutions for the wise management of the environment;
- Facilitating the transfer of knowledge and technology for SD;
- Encouraging new partnerships and mind-sets within civil society and private sector;

Mission:

“To provide leadership and encourage partnerships in caring for the environment by inspiring informing and enabling nations and people to improve their quality of life without compromising that of future generations.”

SUSTAINABLE DEVELOPMENT GOALS

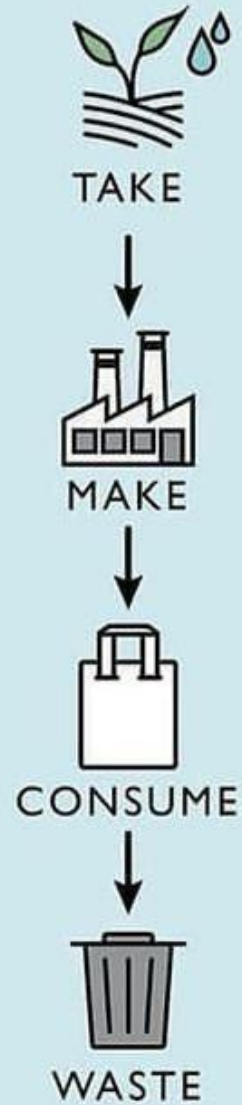

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

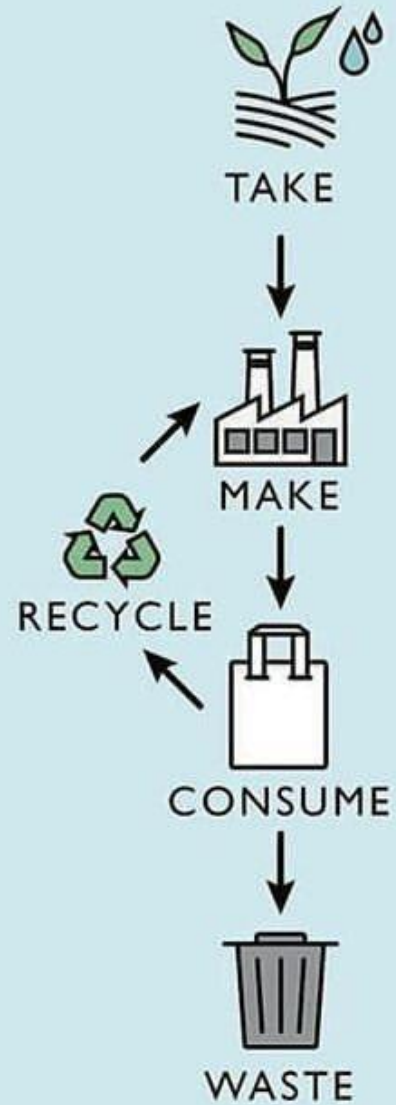

Should the global population reach 9.6 billion by 2050, the equivalent of almost three planets could be required to provide the natural resources needed to sustain current lifestyles.

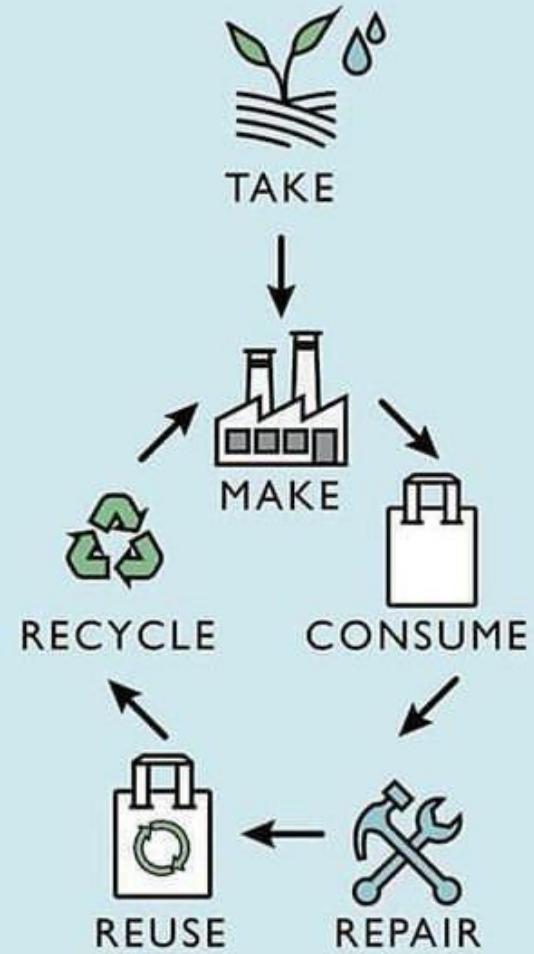

LINEAR ECONOMY

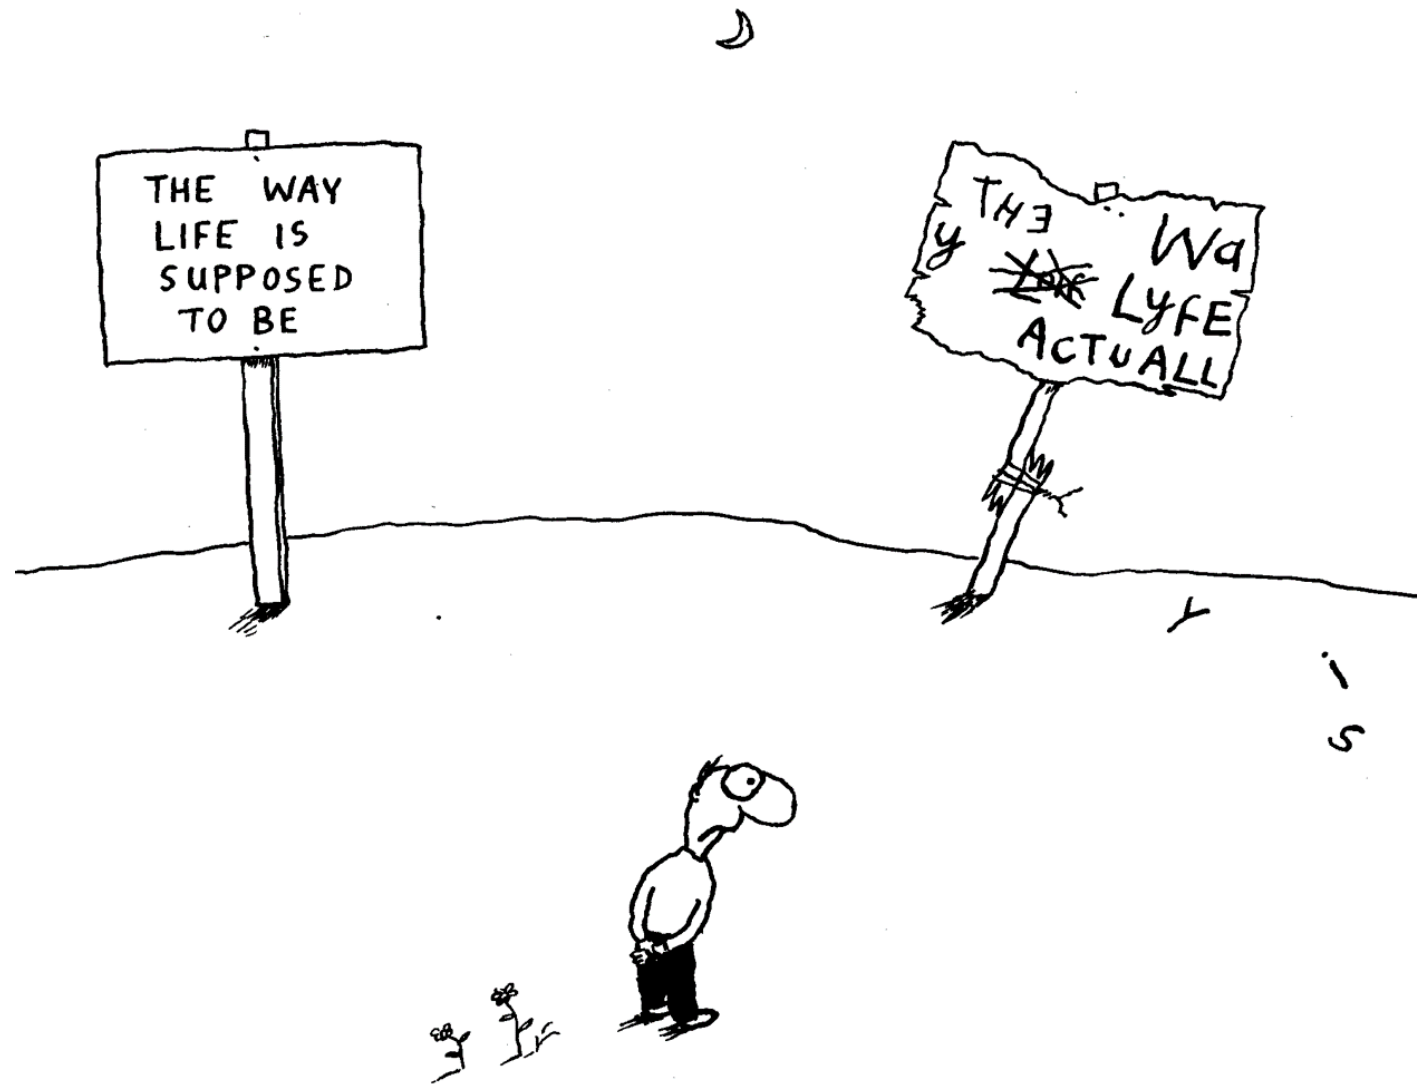

RECYCLING ECONOMY

CIRCULAR ECONOMY

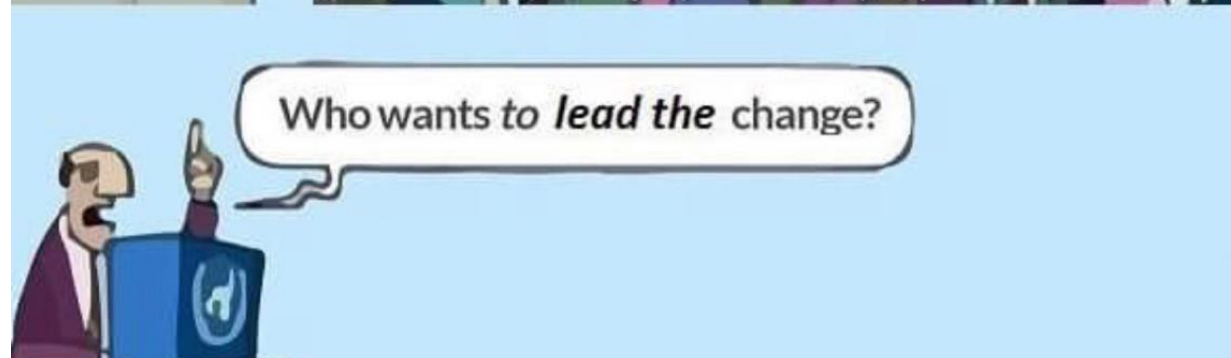

Thank you
